

Tangram Instructions

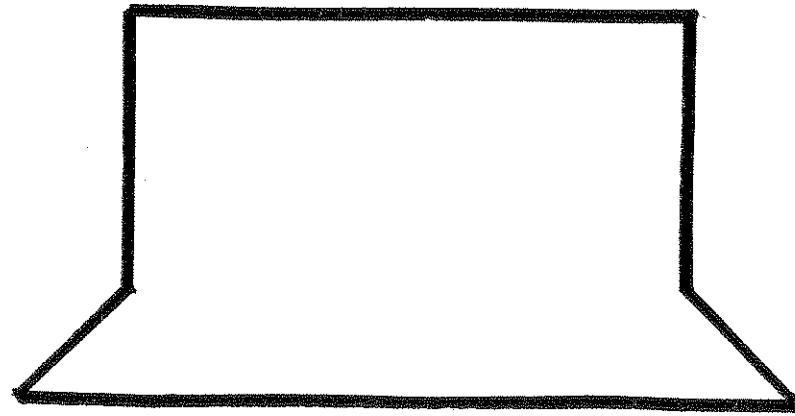

Your partner has chosen the following 11 tangrams for you to complete.

Remember you only have 10 minutes to complete all 11 tangrams. Use the seven tangram blocks to form the outlined shape. Once you have completed a tangram shape, remember to press down the switch so your performance can be recorded. Move on to the next tangram and continue this process until you are done with all 11 tangrams. You are not allowed to spend more than two minutes on a single tangram. If you do spend more than two minutes on one tangram, the experimenter will instruct you, through the intercom, to skip that shape and go on to the next one. Some of the pages have two shapes on them and some of them have just one. Remember to press the switch every time you finish a tangram shape.
